Requirements to Enter the Standard Evaluation

ENTRY REQUIREMENTS: Original documents must be submitted to the Show Secretary on the date of the evaluation.

- The dog must have a passing hip and elbow rating with OFA, ADRK or FCI.
- Passing hips defined: OFA Excellent, Good or Fair, ADRK HD Free or HD+/-, or FCI, HD-A or HD-B.
- Passing elbows defined: OFA Normal, Grade I or Grade II, ADRK ED Free, ED+/-, ED+ or FCI ED 0 or ED I or ED II
- Proof of JLPP testing.
- A weight certificate (issued within 20 days of the test) may be substituted for weighing the dog if no scale is provided.

Weight certificates must be issued by a veterinary office and must include the microchip number of the dog that corresponds with the dog's registration certificate, this information must be written on office letterhead and signed by the performing vet. Certificates must be issued within 20 days of the test. (updated Oct 2019)

- Permanent identification (tattoo or microchip). If a dog is AKC registered, the dog must have paperwork tying the AKC registration papers into the dog such as a letter from their vet stating they have been presented with AKC registration papers stating the registered name of the dog and the permanent identification found on the dog.

Standard Evaluation Test Information

The SE is not a breed survey. Dogs that pass are certified that the dog has a passing hip and elbow rating, confirms full dentition and correct scissor bite, and is free of disqualifying faults under FCI standard with correct temperament. If a dog has an SE and loses a tooth, the dog may still attempt the Ztp.

Both the SE and BSE are offered at URKA Inc. events. When an FCI or URKA Inc, Judge are utilized the evaluation is recognized as an URKA Inc. SE, when an ADRK judge is utilized the evaluation is recognized as an ADRK BSE.

Obtain URKA Inc. SE – Owner pays host club entry fee, receives a signed evaluation form and certificate signed by the judge and breed test secretary.

Obtain ADRK BSE – Owner pays host club entry fee - upon passing the test has the option to pay a recording fee to the ADRK. If the entry fee only is paid then the owner receives a ADRK form signed by the judge. If the recording fee is paid then the owner will receive ADRK

signed form, ADRK certificate and letter mailed from Germany and BSE is recorded in that year's stud book and Dogbase.

1. PROCEDURE:

- A. The tattoo or microchip number shall be read out loud to confirm the ID at the beginning of the evaluation.
- B. Dogs will be weighed, measured and critiqued. Character traits of the dog become more or less apparent during the weighing and measuring process.
- C. Once the conformation and soundness qualifications have been met, the dog's traffic sureness is tested. This test includes a gun sureness test and a test to ensure the dog is stable around the public.

2. The following tests will be done to establish the interaction in a group and sensitivity to noise.

- A. THE GROUP. The handler with dog on leash walks through a group of five to eight people. The handler and dog return to the center of the group where the dog sits. The group, when instructed by the judge, converges on the dog and handler and remains there until told by the judge to disperse.
- B. GUN FIRE. The handler and dog walk away from the judge. At a minimum distance of fifteen paces, a 22 short blank starter pistol, or its equivalent, is fired twice with a short interval in between each shot. Should the dog have a reaction to the gunfire, this exercise may be varied and repeated at the judge's discretion. If the dog continues to show a strong reaction to gunfire, the test is stopped and the dog is deemed not breedworthy.
- C. GUN FIRE REACTION IN GENERAL: No reaction or slight reactions (like turning towards the noise) are both considered to be acceptable reactions. Jumping is considered faulty, and trying desperately to run away is considered very faulty and if repeated can cause the dog to fail.
- D. NOISE SENSITIVITY: The sound sensitivity and the behavior against peaceful persons in a quiet environment it tested. On the way to the group of people and after the gun shot evaluation, the dog and handler walk through the group of people while on leash, at a time instructed by the Judge a canister with rocks, coins, fur saver collar, etc. is shaken near to the dog to create an acoustic stimulus. The noise exercise is repeated up to two more times at the judge's discretion. The dog should be free and open minded in every exercise. If a dog shows undesirable reactions to the noise he is excluded from further examination. The noise evaluation may vary pending the Judge's preference.
